

NEW SAFETY TRAINING DVD!

Farm Grain Bin Safety Video

The National Corn Growers Association and the National Grain and Feed Foundation – the research and education arm of the National Grain and Feed Association – recently unveiled a joint video project to promote awareness about grain bin safety on the farm.

The two organizations teamed up in November 2010 to develop the video in response to an increase in U.S. fatalities and injuries associated with entry into grain bins. Since the video was released, we have been encouraging NGFA members to distribute the video to their farmer-customers.

The new video, shot on location in several states, provides a wide range of information on prevention tips and background data on grain bin accidents. The project also involved interviews with professionals in the fields of grain bin safety research and rescue to provide as much information to viewers as possible.

The video now is available on DVD, which

includes both the short and long versions. Two versions of the DVD are available:

- **Version 1:** This version of the DVD is **REPRODUCIBLE**, allowing you to make unlimited copies to distribute to your facilities and farmer-customers, provided you do so at no charge to those subsequent recipients (under a [limited licensing agreement](#)* available by contacting the NGFA). Cost: \$300
- **Version 2:** This version **CANNOT BE FURTHER DUPLICATED**, and is available for purchase with discounted prices for multiple copies, as shown on the order form below.

Please choose whichever version best meets your needs.

To order, fill out the form below and return to the NGFA by e-mail, ngfa@ngfa.org, or fax, 202-289-5388. Thank you!
