

NGFA Trade Show Guide

(Held in conjunction with Country Elevator / Feed Industry Conference)

Welcome to the NGFA's annual Country Elevator / Feed Industry Conference.

The Trade Show enhances the business value of these meetings and has been growing and improving steadily since its inception in 1989. All exhibitors are eager to show you how their products and services can be used to improve your business efficiency and profitability. Each company has made the extra effort to bring you the latest innovations it has to offer.

Visit with Each Exhibitor:

Please take a few moments to walk down the aisles, see what each exhibitor has to offer, and talk to those displaying products and services you may find useful, both now and in the future. This is a good opportunity to visit with vendors you've worked with in the past, and to renew your relationships with them in a relaxed environment. This also is a chance for you to do some shopping for the year, as exhibitors have been known to offer special show pricing to meeting registrants.

Enjoy!

Schedule

SUNDAY, DEC. 6, 2009

- Noon - 4 p.m.: Exhibitor Move-In
- 4 p.m. - 7 p.m.: Trade Show Open
- 4 p.m. - 5:30 p.m.: Beer and Popcorn in Trade Show

Save this Guide for Future Reference – Use It All Year Long!

Now available in a dry formulation for on-farm storage!

DIACON.[®]

**Insect tested.
EPA approved.
Stored food
product sound.**

The DIACON[®] family of products are EPA approved, tolerance exempt, insect growth regulators (IGRs) that break the insect life cycle and are powerful enough to prevent reinfestations that cost you revenue.

Application is approved virtually everywhere stored product insects are a problem.

From farm storage sites, food processing facilities and peanut bin and grain storage, to bottling plants and everywhere in between, DIACON goes where insects go to provide long-term control and profit protection.

DIACON is now available in two formulations. DIACON II is a versatile liquid formulation, while DIACON-D is the new dry formulation for on-farm storage.

Discover the power of DIACON.

www.verticalsoftware.net

The standard of excellence for agri-business products since 1983. Our grain software provides reliable service for hundreds of companies across the U.S. and Canada. From contract, to delivery, to storage, through settlement and history, GrainTrac keeps track. GrainTrac works independently or fully integrates with all our software including our scale, feed, fertilizer, chemical and financial accounting. Our scale software will capture your weights electronically. Save hundreds of hours of re-keying every year with our SpeEDI interface to ADM and Cargill. We also offer custom-built hardware. Support is available whenever you need it.
